Work Experience

Software Development Engineer I, Logicknots

Jul 2025 – Present, Remote

Live

- Promoted from Intern to SDE I for leading end-to-end development of a **Canvas-based draw editor (React.js)** and a **cross-platform LMS app (React Native/Expo)**.
- Built performant **Go (Golang)** APIs with validations, rate limiting, and centralized error handling, ensuring scalable production reliability.
- Designed efficient state management with **TanStack Query, Context API, and custom hooks**, improving data synchronization and cutting redundant re-renders.
- Developed core **Canvas rendering logic, tools (ruler, rectangle, guides)**, and real-time synchronization between UI and state.
- Containerized services with **Docker** to streamline CI/CD and maintain consistent multi-environment deployments.

Freelance Developer, SocialZone

Feb 2025 – Present, Remote

- Developed the company's official website using **React.js, Framer Motion, and Tailwind CSS**, delivering a modern, animation-rich interface with optimized performance (lazy loading, asset optimization) and a consistent, scalable design system.

Skills

Languages: JavaScript, TypeScript, Golang, SQL, Java, Python, HTML

Libraries/Frameworks: React.js, Next.js, React Native, Expo, Node.js, Express.js, Go-Gin Shadcn, Tailwind CSS, Redux-toolkit

Database: MongoDB, PostgreSQL, Supabase, Firebase

Tools/OS: Windows, Linux (Ubuntu), Github, Docker, Git, NPM, VSCode, Vercel

Theoretical: Operating System, Computer Networks, OOPs with Java, DBMS, Computational Thinking, Theory of Computation

Projects

Hiresense — AI Powered Voice Chat Recruiter

Live | GitHub

- Built an AI-driven interview platform using **Next.js, Tailwind CSS, Shadcn UI, Vapi AI, Gemini AI, Supabase**, and **Google OAuth**.
- Enabled job-specific question generation, real-time voice interviews, and automated transcription with AI-based summarization.

MailGo Concurrent Email Sender

GitHub

- Built a full-fledged **MailGo** in **Go (Golang)** featuring a complete **web dashboard** where users can authenticate (**Gin + JWT**), select templates, upload CSVs, and send bulk emails with a single click.
- Engineered a high-performance, concurrent email delivery system using the **producer-consumer pattern** with goroutines, channels, and **rate-limited workers**.
- Integrated **PostgreSQL** for user management, dynamic **HTML email templates**, and **Mailpit** for SMTP testing, ensuring scalable, reliable, and personalized email delivery.

Education

Bachelor in Data Science with AI and ML

2025 – Present

Indian Institute of Technology Madras, Chennai

Bachelor of Technology in Computer Science (B.Tech)

2022 – Present

Dr. A.P.J. Abdul Kalam Technical University, Greater Noida

Achievements

- **Finalist, CompassionateThon, IIT Madras (June 2025):** Top 15 out of 7,000+ applicants (250 teams) for ideathon, demonstrating strong product development and pitching skills.
- **3rd Place, Chess Tournament, IIT Madras Paradox'25 (June 2025):** Secured third position in an inter-college chess competition, showcasing analytical and strategic skills.
